1. Address and repair the cracks in the concrete floor in CH-11 Bldg. 345B. (Safety issue)

2. Repair the rain gutters and downspouts. (Safety Issue)

3. Remove and replace the floor tile in the office wing and the labs. (Asbestos containing materials)

4. Reconfigure rooms 9, 9A, 8 and 8E in Bldg. 345A to provide an additional 10 seat conference room. Net office count to remain the same.

5. Renovate the restrooms.

6. Provide additional electrical capacity in the labs.

7. Remove and replace termite damaged doors.

8. Repaint the building exterior.

9. Trim trees in the courtyard.

10. Incorporate the donated memorial kiosk into the courtyard. Partial design completed. Construction of the kiosk to be donated.

11. Repair/replace the exterior windows in rooms 8B, 8C, 8D, 9B, 9C, 9D, 10A and 10B in Bldg. 345A. The goal is to provide lighting control and accommodate air conditioning.

Any questions regarding construction must be directed to Ted LeJeune, Construction Manager for the College Hall Renovation project, extension 47595.
